Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/21/2005 has been entered.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or suggest the drive circuit drives the second display element with a signal produced by adding a signal produced based on the first image signal to the second image signal when the filter is off the optical path of the first color. The Japanese patent application publication cited by applicant in the 9/21/2005 information disclosure statement, JP 07-318883, teaches in paragraphs 0008, 0010, and 0011 altering the output of the display elements in response to purity of the red light changing when the dichroic mirror 9 is moved in the optical path, however, this reference does not describe adding a signal produced based on the first image signal to the second image signal when dichroic mirror 9 is moved off the optical path.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
